eDriver Logs

Manage safety and compliance without the paperwork.

PeopleNet eDriver Logs automates hours of service while reducing violations and improving driver efficiency and safety. This easy-to-use program gives commercial fleet owners and drivers real-time access to the information they need to better manage hours of services risk and exposure. Plus, eDriver Logs requires no additional hardware or software.

- **Automate hours of service**
- **Receive real-time access to information**
- **Improve driver efficiency and safety**
- **Reduce violations**
- **Meet CSA Compliancy**

No more paper logs translates into higher performance.

Save time. Eliminate safety risks.

Eliminating paper logs by upgrading to eDriver Logs is not just about saving trees. It's about pinpointing violations before they are made. It's about eliminating safety risks by knowing how many hours your driver actually spent driving versus being on-duty. It's also about staying ahead of the game by having a snapshot of your driver's profile including company terminal trailer and vehicle information instantaneously. Paper logs do tell you some things, but won't tell you anything in real-time. Plus the electronic, easy-to-read grid is always complete and displays driver log information for as many days as you need to see it. Hours of service information can be viewed in real time from inside the cab and from your back office.

	Midnight 0 1 2 3 4 5 6 7 8 9 10 11 Noon 12 1 2 3 4 5 6 7 8 9 10 11 12	Total Hours
Off Duty		3:31
Sleeper Berth		10:05
Driving		10:24
OnDuty (not driving)		0:00

When using eDriver Logs in Smart Mode, the PeopleNet onboard computer detects movement and stops to switch drivers between on-duty and driving statuses, letting your drivers drive. If an hours-of-service violation is imminent, the system alerts the driver. eDriver Logs meets U.S. the system alerts the driver. eDriver Logs meets U.S. regulation 395.15, including state regulations for Texas, California, Florida, Alaska, and Canadian regulations below the 60th parallel for automatic onboard recording devices. **eDriver Logs will also be in compliance with the ELD Mandate upon its effective date.**

Reporting Included

Summary Report

- Summary of 6-12 months of driver log records
- Used for internal audits
- Helps to review driver performance

Daily Driver Log Report

- View available driver hours in real-time
- View miles traveled, off-duty, sleeper berth, driving on-duty, total on-duty, total on-duty per the regulation, available driving, available on-duty and hours gained
